

# Connecting to the Internet

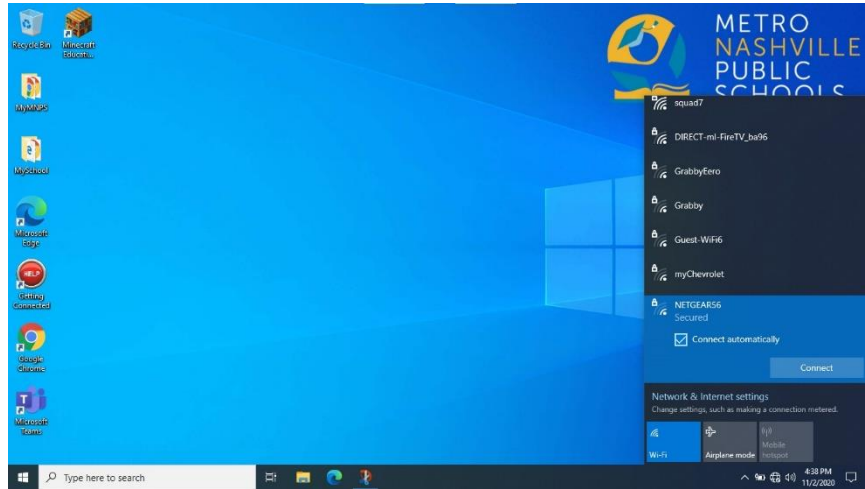

To connect to the internet on your student laptop, click on the network symbol at the bottom right side of your screen.

A window will pop up with a list of networks the laptop can connect to. Choose your wifi from the list.

Check the box to connect to this wifi automatically next time you use the laptop.

Click 'Connect' and enter the password to your wifi network. Click 'Next'. The laptop should connect to your wifi network.
